

Meet Your Sitter

Name: Kyra

Bio: Recently returning from a year teaching in Germany, I can say with conviction that working with kids of all ages is a natural inclination for my work preference and passion. Growing up with Grandparents near Minneapolis, Minnesota, I have a an instilled gentle and patient nature that I share fondly with children.

I attended college in upstate New York at Wells College. There worked simultaneously at an elementary school as well as Head Residential Advisor, counseling and supporting my college peers. I believe firmly in education, both in and outside of school. Learning is a daily process, and every situation can be a reaffirmation to encourage an individual child to grow; I strive to mentor the practice of caring for self and others while simply enjoying life.
